Other 2006 Events in Manitoba that were posted on the MPPI website or bulletin

February 3rd - 5th Annual Municipal GIS Conference. Datalink Technologies presents a one day conference featuring topics such as: Public drainage solutions using GIS, GIS in the hog industry in Manitoba, and new imagery and sources of GIS. 8:00 am – 4:00 pm – Caboto Centre, Winnipeg MB (\$120 if registered by January 22, 2006). Details and registration information can be found at: <http://www.datalink.ca/index.html>

February 7 – 8: Manitoba Environmental Industries Association (MEIA) - "Manitoba Construction Conference – Safety, Health and Environment". Watch the MEIA web site for details as they are made available: <http://www.meia.mb.ca/>

February 20: Stemming the Flow – Strategies for Reducing Water Consumption

The Manitoba Chapter of the Canada Green Building Council presents Trevor R. Dixon of Water Matrix, who will bring his experience in water consumption auditing and present the case for implementing water use reduction strategies in practical building solutions. Through case studies, Mr. Dixon will demonstrate how

implementing these strategies in new and existing buildings not only reduces the wastewater load on municipal systems and the risk of raw sewage overflow into the environment, but also reduces energy spent heating and conditioning the water. 12:00 Noon at the Dalnavert Museum (61 Carlton Street). For more information on Trevor Dixon and Water Matrix, visit their website at www.watermatrix.com/service.

February 21st: Integral City, Integral Nation, Integral World: New Maps for New Times. Through this interactive event (sponsored by the Department of Planning, University of Manitoba and Integral Manitoba), **Dr. Marilyn Hamilton** will discuss her pioneering work in mapping and meshing values, and help situate Winnipeg's dynamic edge and emerging potentials onto her Canadian and global maps. 7:00 pm to 9:00 pm – Carol Shields Auditorium, 2nd Floor of the Winnipeg Millennium Library (251 Donald). Parking is available on two underground floors, with entries at Donald and at Smith. Tickets are \$20 (\$10 for students) at the door. Contact imanitoba@shaw.ca to reserve your seat. For more information on Dr. Hamilton's work, please refer to the web site: www.integralcity.com

February 24: Proposed Regulation Defining Water Quality Management Zones for Nutrients Under the Water Protection Act.

The Canadian Water Resources Association (CWRA) presents Dwight Williamson, Director of the Water Sciences and Management branch at the department of Water Stewardship. Mr. Williamson will discuss the first regulation to be proposed under the Water Protection Act—Water Quality Management Zones—in particular, how these land-based zones were defined and why they will help protect water systems from excessive run-off of the plant nutrients, nitrogen, and phosphorus.

12:00 Noon at the Holiday Inn South (1330 Pembina Highway), Winnipeg. Admission: \$17.00 for Non CWRA members. To register, please contact Michelle Bercier at 204-896-1209 (ext. 282) or MBercier@kgsgroup.com. See the attached poster for more details.

May 2nd - 3rd 2006 Geothermal Heat Pump Awareness Workshops

Due to the success of the geothermal workshops held in May 2005, Manitoba Hydro's Earth Power Program will be hosting an additional four Geothermal Heat Pump Awareness Workshops across various regions in Manitoba in 2006. These workshops are targeted at both residential and commercial customers looking for more information on geothermal heat pump technology and financing available through Manitoba Hydro's Earth Power Program.

**May 25th - 26th - Planning for Effective Public Participation (IAP2 – Winnipeg registration)
International Association for Public Participation (IAP2)**

This two-day module of the IAP2 Certificate Program provides an introduction to the foundations of effective public participation programs. IAP2 has worked with practitioners from around the world to develop foundational tools that transcend national and cultural boundaries. Even advanced practitioners will find useful tools and techniques to assist in working with the public and clients to establish effective public participation. These tools are presented in an interactive and experiential learning environment that provides students with the opportunity to explore their own public participation challenges with their instructor and peers.
